Shanghai Municipal Commission of Commerce – Excellent Case of Green and Low-Carbon Development of Foreign-Invested Enterprises in Shanghai

Xintiandi, flagship project of Shui On Land, has been awarded Excellent Case of Green and Low-Carbon Development of Foreign-Invested Enterprises in Shanghai for its efforts in making this district to a green and healthy-living community and a near-zero emission practice area.

Shui On Land, a pioneer of sustainable premium urban communities in China, began to formulate sustainable development goals as early as 1997. In 2020, the company launched its 10-year 5C Sustainable Development Strategy, mapping out five key areas of focus: Clean, Community, Culture, Care, and Corporate Governance. Through the ongoing implementation of the 5C Sustainable Development Strategy, Shui On Land is integrating sustainability considerations into all aspects of our business strategies, decision-making, and operations. The company believes that its sustainable strategy, combined with its dedication to quality and integrity, will enable it to contribute positively to the long-term success of our business, support the growth goals of our partners, and enhance the wellbeing of our customers.

These awards recognize the important work we are doing to actively oversee the transparency, accountability and integrity of our governance processes, particularly in the ESG, investor relations and CSR platforms. The distinction also acknowledges our admirable leadership in devising and implementing various initiatives to cater to the investor community's needs while upholding the highest ethical standards across its business practices. With the remarkable dedication and commitment from our full senior management team and all of our colleagues, Shui On Land has delivered a solid performance amid a challenging macro environment. The accolades are also a testament to us that our leadership has gone a long way in enabling us to navigate through the new normal and enable us to build resiliency amidst challenging times.
